

**Method #2: Animate**

See [repref.tidyverse.org/articles/articles/rtn.html](http://repref.tidyverse.org/articles/articles/rtn.html) for details

```
ttest_fun ← function(response) {  
  form ← paste(response, "~ group")  
  lm(as.formula(form), data = dat)  
}
```

```
ttest_fun ← function(response) {  
  form ← paste(response, "~ group")  
  lm(as.formula(form), data = dat)  
}
```

# Method #2: Animate

```
ttest_fun ← function(response) {  
  form ← paste(response, "~ group")  
  lm(as.formula(form), data = dat)  
}
```
